

See the attached Appendix for the changes made to effect the above paragraphs.

IN THE CLAIMS:

Please enter the following amended claims 1-3:

- B7 5/18/09
1. A method for attaching an adhesive tape comprising the steps of:
disposing the adhesive tape having an adhesive surface on a support body with said adhesive surface down such that said adhesive surface is in contact with said support body;
rolling an attaching roller having adhesive strength on an opposite, non-adhesive surface of said adhesive tape so that said adhesive tape is transferred onto said attaching roller and is held in tight contact therewith; and
rolling said attaching roller on a surface of a member which is located in a predetermined position so that said adhesive tape adhered to said attaching roller is transferred to and attached onto the surface of said member,
wherein respective adhesive strengths A, B and C are set to have a relation of $A < B < C$, where A designates adhesive strength between the adhesive surface of said adhesive tape and said support body, B designates adhesive strength between the non-adhesive surface of said adhesive tape and said attaching roller, and C designates adhesive strength between the adhesive surface of said adhesive tape and said member.
 2. A method for attaching an adhesive tape according to claim 1, wherein said support body comprises a conveyor belt that has been subjected to a reduction treatment to reduce adhesivity between the adhesive surface of said adhesive tape and said support body.
 3. A method for attaching an adhesive tape according to claim 2, further comprising the step of:
cutting a roll-form adhesive tape into adhesive tape pieces having a predetermined length,
wherein said adhesive tape pieces are disposed one by one on said conveyor belt with their adhesive surfaces down such that said adhesive surface is in contact with said conveyor belt, and said adhesive tape pieces are conveyed by said conveyor belt to a position where said adhesive tape pieces are transferred onto said attaching roller.

See the attached Appendix for the changes made to effect the above claims.
